

AI Bootcamp

Final Project, Week 1

Module 23 Day 2

Class Objectives

By the end of class, you will be able to:

1 Collaborate with your team on your project.

2 Establish a team Git branching strategy.

3 Assign project tasks to team members.

4 Acquire all data and begin analysis.

Establish **Deliverables**

Activity:

Establish Deliverables

These are the high-level deliverables to complete by the end of the class:

- Code should be running on each team member's machine.
- Each team should have an established Git branching strategy.
- Actively collaborate and delegate tasks. Consider project management tools, like GitHub Teams or Trello, to help you get organized and stay on task.
- Acquire all data and begin the data extraction, cleaning, and transformation process.

Remember! Your instructor, TA, and support staff are available to assist you in achieving these goals.

Suggested Time:

20 Minutes

Team Standups

Activity:

Team Standups

Each group member should share their answers to the following questions:

- What have you worked on so far?
- What will you work on next?
- Have you encountered any blockers or struggles?

Suggested Time:

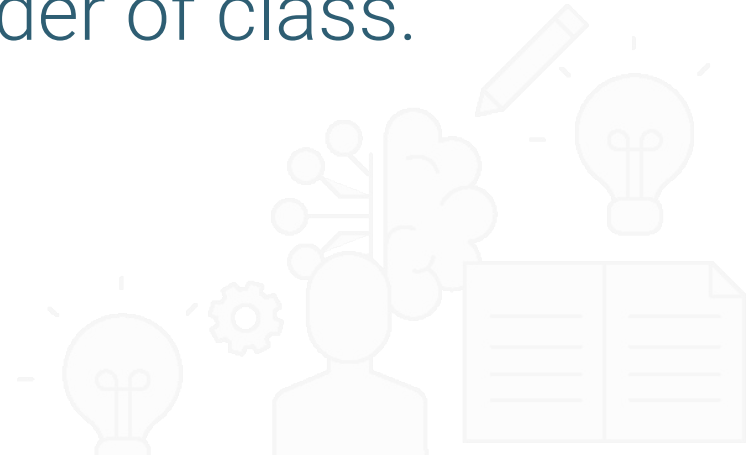

20 Minutes

Project time!

Work with your groups
for the remainder of class.

Break

15 mins

Recap

After today's lesson you are able to:

1 Collaborate with your team on your project.

2 Establish a team Git branching strategy.

3 Assign project tasks to team members.

4 Acquire all data and begin analysis.
